Name _____ Score _____ / 4 Teacher _____ Date _____

Average Rate of Change from Graphs

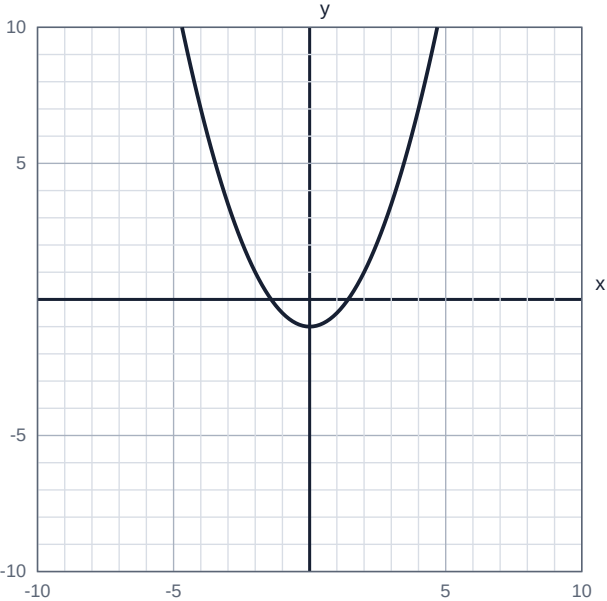

Read the two points from each graph. Draw a secant and estimate its slope. Round to the nearest hundredth when needed.

1. Between $f(4)$, $f(-5)$

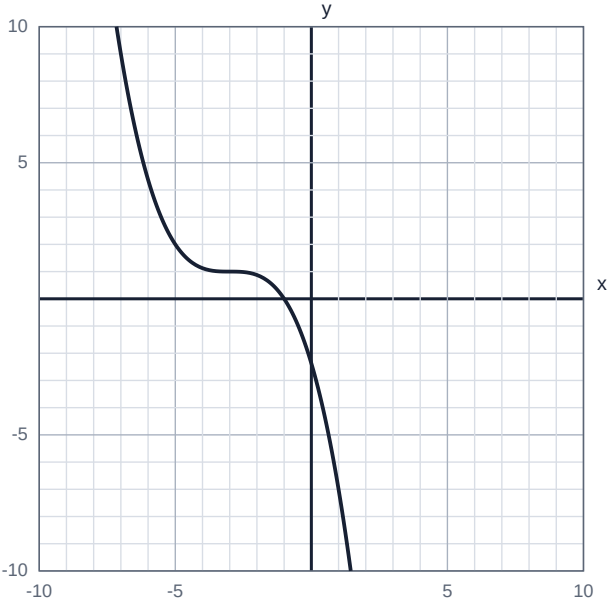

Average rate: _____

2. Between $f(3)$, $f(-4)$

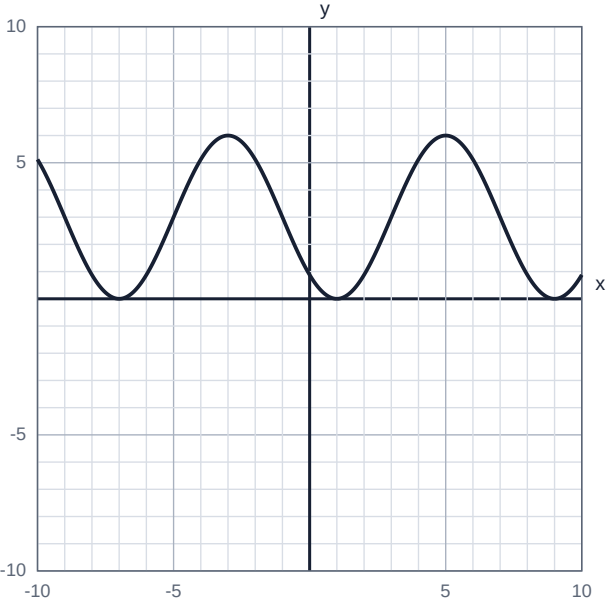

Average rate: _____

3. Between $f(1)$, $f(-5)$

Average rate: _____

4. Between $f(-1)$, $f(-5)$

Average rate: _____
