Try it yourself

Equal Parts and First Fractions

Point, build, draw or tell. A grown-up can read each question.

1

The strips are the same size. Which one is split into two equal parts, the top or the bottom?

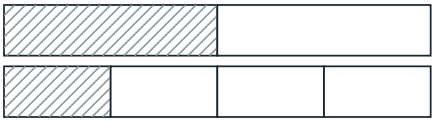

2

One part is shaded. What fraction of the whole strip does it show? You can say it in words.

3

These strips are the same size. Which strip has more shaded, the top or the bottom?

4

Shade one half of the whole strip.

5 • Try it if you want

A strip has 8 equal parts. How many parts would you shade to show half?
