Try it yourself

Split an Array to Multiply

Point, build, draw or tell. A grown-up can read each question.

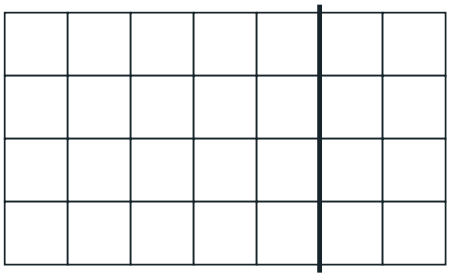

1

Split each of the 2 rows into 4 squares and 2 squares. How many squares are in each part and in all?

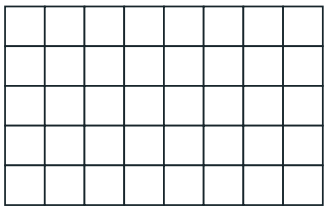

2

There are 4 rows of 7. Each row is split into 5 and 2. Fill in the blank: 4 × 5 + 4 × 2 = ___.

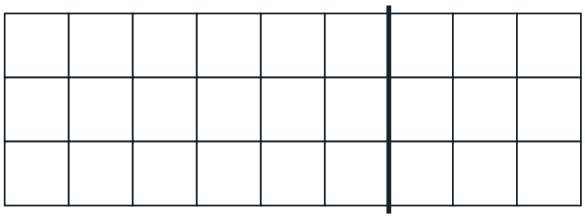

3

Draw a line between two columns to make two rectangles. How many squares are there in all?

4

Split 3 rows of 9 into 6 and 3 per row. Someone wrote 3 × 6 + 3 = 21. What did they miss?

5 • Try it if you want

There are 6 rows of 12. Split each row into 10 and 2. How many squares are there in all?
