Try it yourself

Build a Bigger Square

Point, build, draw or tell. A grown-up can read each question.

1

How many little squares are in this grid?

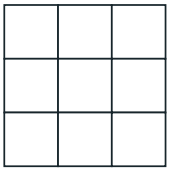

2

Circle the grid with as many rows as squares in each row.

A

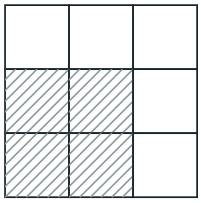

B

3

The striped squares are already there. How many more fill the big square?

4

Make or draw 4 rows with 4 in each. How many? Show how you counted.

5 • Try it if you want

How many new squares turn 3 rows of 3 into 4 rows of 4? How do you know?
