Kindergarten Math Cheat Sheet

Count on a ten-frame

Top row	**5 dots**
Bottom row	**2 dots**
All together	**7 dots**

I point to each dot once. The last number tells me how many.

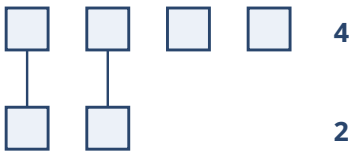

7 counters

Compare two groups

4 blocks and 2 blocks	**4 is more than 2**
2 blocks and 4 blocks	**2 is fewer than 4**
3 blocks and 3 blocks	**3 is the same as 3**

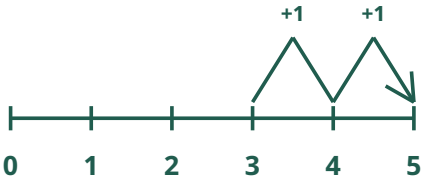

I make pairs. The group with blocks left over has more.

Put groups together

I start with 3 blocks	**3**
I add 2 more	**+2**
Now I have 5 blocks	**3 + 2 = 5**

The number line shows two hops from 3 to 5.

Name the shapes

Circle	**No corners**
Triangle	**3 sides**
Square and rectangle	**4 sides**

I can turn a shape. Its number of sides stays the same.

Circle Triangle Square Rectangle
